Draft Board Gets Additional List of Names of Men Who Are Given Final Classification—Examinations Are Being Held Up

BULLETIN.

Special to The Democrat-Forum.

Washington, Feb. 4.—The final quota of drafted men will be called to service ,the movement to begin February 23 and will continue for five days. Governors will make arrangement for transportation for the men from their respective states. Missouri will furnish 1,624 men and Kansas City 700.

An order received by the local draft board from Provost Marshal General Crowder this morning through Governor Gardner is followed by an order from Washington announcing February 23 as the date of the call for the last contingent in the fist call.

The order is as follows:

"You will proceed with the utmost expedition to examine physically a sufficient number of Class 1 men in the order of their liability to fill the deferred percentage of your correct quota but will not proceed beyond that number, plus a reasonable surplus, to care for cases that may be rejected on appeal. The examinations may be continued under the old regulation, then examination of other men in Class 1 should be delayed pending arrival of the new regulations. it is of the utmost importance that examination of a sufficient number to fill the deferred percentage of the correct quota be completed as rapidly as possible."

"GARDNER."

Examinations are being held up awaiting further advice as more than required men are already available to complete the first named quota.

The draft board received today an additional list of names from the district board giving final classification for the following registrants:

THE BIG FUN SHOW TONIGHT

There are Some Novel Features at the "Spinsters' Convention" at the Empire Tonight

Everything is in readiness for the "Spinsters' Convention," given by the ladies of the Christian church tonight at the Empire theatre, and the program promises to be as good or better than the "Union Depot," or the "Old Photograph Album," in both of which the ladies scored big successes. The program this evening is fun from start to finish.

The old maids will include some of the best amateur talent in Maryville; not that Maryville is overburdened with old maids, for there are none here to speak of except for stage purposes, and these will be made over into beautiful young girls—and there are plenty of them here—the real things, for stage or other purposes. The "Spinsters Convention" includes quite a cast of fun makers and you'll enjoy them all, those who have attended rehearsals say.

There are some other features, too, that will prove enjoyable, including a Grecian dance by Ruth Miller, a novelty by little Emma Ruth Bellows. Margaret Chilton of St. Joseph will also have a part; the twins in a musical act, a piano monologue, duets and solos, a big patriotic drill are some of the features that will go toward making an unusually interesting program.

Indications point to a large crowd.

NORMAL GETS COAL SUPPLY

Classes Were Resumed This Morning After Two Days Shut-Down — High School Getting Short

Classes were resumed at the Normal this morning after having been dismissed last week for two days on account of a shortage of coal, one car load having arrived late Saturday and was unloaded yesterday. It is believed that there will be no further occasion to close the school on account of lack of coal, as promises have been made to ship an adequate supply.

At the Washington school there is coal enough to last this week and members of the school board say that at present no more is in sight. A promise by the state fuel commissioner to have two car loads shipped has not yet been made good and unless coal can be secured from some source the school may be forced to close at the end of this week for an indefinite period.

TEARING DOWN THE WALLS

Workmen at Work on Ruins of Recent Fire — Safes Taken Out Are Probably Little Hurt

Workmen today began tearing down the walls of the burned Michau building, the walls of adjoining buildings that are dangerous and will level all so that the work of removal of debris can start as soon as the ice has melted from them.

The safe belonging to Dietz & Keck, tailors, was dragged from the ruins this morning and appears to be in good condition. Books, records and some money is contained in the safe. The safe of the Holmes Jewelry Company is being taken out this afternoon, and the safe of Holmes & Wolfert, real estate agents. Both are believed to have been practically unhurt and the contents uninjured to any great extent.

Notwithstanding the cold Saturday, crowds of curious people scrambled over the ice and ruins to see what could be seen and many endangered their lives under walls that seemed ready to topple over, so great was their curiosity.

DIES AT SHENANDOAH, IA.

Mrs. Jane Alumbaugh, Former Maryville Resident, Has Fatal Heart Stroke

Mrs. Jane Alumbaugh, a former Maryville resident, died at 2:30 o'clock Saturday afternoon in Shenandoah, Ia., at the home of her son, B. Adams, following an illness of heart trouble.

Mrs. Alumbaugh is survived by two daughters and three sons. Until last August she made her home in Maryville, but since that time has been in Shenandoah with her son. The body was brought to Maryville last night and was taken to Barnard this morning for burial. Mrs. Alumbaugh was 64 years old.

Richard Kuchs, who was called to Maryvillefor his physical examination for the National Army, left last night for his home in Toronto, Canada.

HOLDEN SHOWS HOW

AGRICULTURE EXPERT AND FIVE AIDS HERE FOR WEEK'S WORK

THREE SESSIONS DAILY

County Superintendents and Teachers From Seven Counties Will Take Work Back to Their Schools

Prof. P. G. Holden arrived in the city yesterday with five assistants who are co-operating with County Superintendent of Schools Bert Cooper to start a weeks' campaign for teaching vitalized agriculture in the schools. Seven of the livest counties of the state are to be represented by their superintendents and a group of their choice teachers are to put in three full sessions a day for one week on lessons on corn, oats, wheat, alfalfa and home making. These teachers are planning to take the work back to their schools.

P. G. HOLDEN.

They will be assisted in their teaching by a specially prepared outline covering all subjects taught in the grades.

The aim of this work is to prepare the children to meet the needs of every day life when they leave school. This method of teaching appeals to the child because the lessons are taught to him in terms of his every day school life.

Missouri Starts Movement.

Missouri is the first state in the union to organize its schools for such a purpose. State Superintendent Lamkin organized the state movement and already five training schools have been held with the county superintendents working with Professor Holden of the Educational Department of the International Harvester Company.

County Superintendent Cooper held a conference with Professor Holden and Thomas Walker in charge of rural school for the state yesterday evening and arranged a tentative program. Arrangements have been made by Supt. Cooper with Dr Richardson, president of the Normal school for use of the agricultural room in the west end of the building. Teachers began arriving in Maryville last night from outside counties. The Democrat-Forum will report the proceeding of the short course school each day.

WATER MAINS ARE FROZEN

Shallow Service Pipes In Various Parts of City Cause Inconvenience to Housekeepers

The severe weather of the past two weeks has kept the plumbers busy day and night answering calls to thaw out frozen pipes and even on Sunday they have been called for emergency work in private homes and for the city. Water mains in a number of places have been frozen and scores of homes have been without water for more than thirty-six hours.

Plumbers worked all day yesterday and late into the night on frozen mains on West First street in the 500 block in an endeavor to get water to some eight or ten residences. The mains were found at a depth of two feet under the pavement and the ground was frozen for twenty inches. At several other places in the city shallow laid mains have frozen.

PLAY PATTONSBURG TONIGHT

M. H. S. Players in Good Shape for the Scrimmage With the Daviess County Aggregation

The game by the Maryville High School basket ball team with Pattonsburg, scheduled for February 1, will be played tonight at Pattonsburg, the M. H. S. team having left this morning for the Daviess county capital. Coach Schultz was accompanied by the following players: Egley and Puckett, forwards; Robison and Kirby, guards; and Yehle, center. Eugene Yehle will referee the game.

"The M. H. S. team is in good shape for the game tonight," said Coach Schultz this morning before leaving, "and barring accidents ought to bring home the long end of the score." Late practice games have gotten the players into good form and more speed and increased efficiency in team work has been shown. Report of the game will be received at the Democrat-Forum office.

MASONS MAY BUILD

DECISION WILL REST WITH REPORT OF COMMITTEE

CONSIDER TWO PLANS

One Will be Erection of Building Exclusively for Masons, Other is Building for Revenue

Final decision of the four Masonic bodies of Maryville as to the nature of a building and location of a new Masonic home will be taken up following the report of a special committee, who will report on the matter at a meeting to be held next Sunday afternoon at the Empire theatre.

Following the fire of last Wednesday night when the Masons were made homeless by the destruction of the Michau building, a meeting was held yesterday afternoon at the Christian church and the matter of building a home was discussed at some length. In order that some definite proposition might be considered it was decided to name a committee composed of two members of each of the four bodies, one of them to be the presiding officer, who would present in concrete form one or more feasible propositions regarding the building of a home.

It was the sense of the meeting yesterday that the committee go into detail on two propositions; one to erect a building exclusively for use by the Masons, another the erection of a building providing for rental space that would return a revenue to the order. It is believed that the recommendation of the committee as to either proposal will receive approval by the four bodies.

The presiding officers of the four Masonic bodies are: James Smith, Maryville lodge No. 165; F. Ralph Marcell, Nodaway lodge No. 470; Walter S. Todd, Owens Chapter No. 96, R. A. M.; Dr. F. C. Wallis, Maryville Commandery No. 40.

In their report the committee was instructed to outline plans for two buildings, together with the approximate cost and the plan of financing. Options on locations will also be submitted with the report.

Until a new building is secured the various Masonic bodies will use the Odd Fellows' hall. Insurance claims covering losses in the fire, will be paid at once and a committee was named to handle the matter.

C. C. Hellmers presided at the meeting yesterday, at which over one hundred Masons were present.

Charley, Dallas and Don Groves of Maitland were in Maryville on business today.

BODY FROZEN STIFF

LOUIS JENSEN, AGED DANE, IS FOUND DEAD IN BARNYARD

WIFE DEFIES OFFICERS

Cannot Be Coaxed From House and Threatens Intruders — Sheriff Dowden Undertakes Arrest

Was Louis Jensen, whose frozen body was found this morning in his barnyard at his home near Bedison, the victim of his demented wife, or was death due to an accident? The question will perhaps remain unanswered.

The first knowledge of Jens n's death came from his wife this m rning, she having attracted the attention of neighbors by shouting. As several came to learn the trouble, she denied them admittance to the h e and told them than Jensen was dead, having been attacked by a cow, and that his body was in the cow lot about a hundred feet distant from the house. With curses and meaningless talk she ordered the body be brought and throwa in the well, where she declared it would sink into hades. She could not be coaxed from the house, nor would she permit anyone to enter, threatening dire calamity to any who dared.

Neighbors called Sheriff Dowden, who, with County Coroner H. S. Rowlett and Township Assessor Fred Smith, went to the Jensen home. They found Jensen's frozen body where it had lain in the barnyard lot for perhaps twenty-four hours. Coroner Rowlett viewed the body, but failed to find any evidence that he had been kicked or attacked by a cow, the only mark on his person indicating violence being a scar across the forehead which might have been sustained either in a fall or by having been hit with an instrument. Coroner Rowlett refused to call a jury for an inquest and ordered the body brought to Maryville. Undertakers Price & McNeal secured the body and brought it to their undertaking rooms.

Theirs a Sad Case.

The case of the Jensens is a sad one and unusual. They are Danes and have lived on their forty-acre farm in the extreme southeast corner of Polk township for many years. Jensen, who is sometimes known by the name of "The Sailor," is seventy-nine years old. His wife is some fifteen or eighteen years his junior. They have lived for several years a life of isolation from their neighbors, many of whom are afraid of them.

Last summer on the occasion of a visit by Assessor Fred Smith for the purpose of assessing their property, Mr. Smith found Jensen about to hang himself, and persuaded him to desist. In a talk with the old man Jensen told him he could see no excuse for living longer as both he and his wife were crazy. "She may kill me or I may kill her," he said, and threatened to take his life when the assessor was gone.

Mrs. Jensen is an able-bodied woman weighing perhaps two hundred pounds, and Sheriff Dowden decided to get instructions from the court before proceeding further in the matter, realizing that a struggle would ensue when an attempt should be made to take her into custody, as she is known to have firearms in the house.

Complaint was made before Judge Robertson of the probate court of her condition and Sheriff Dowden will serve her with notice and will undertake to secure possession of her person so that she may be taken to the insane hospital at St. Joseph. The sheriff, in company with Police Officer Eph Tilton and Fred Smith, went to the Jensen home this afternoon to carry out the orders of the court and the demented woman will be brought here.

Gets Captain's Commission.

Dr. H. S. Rowlett received from the war department today his commission as captain in the medical reserve corps. Dr. L. E. Dean and Dr. K. C. Cummins received their commissions as first lieutenants. They will not go until later.

Mr.and Mrs. John Goeke have rented the J. D. Dickerson property on East Sixth street and will move there at once.

F. R. McWilliams is here from his home near Des Moines, Ia., for a short visit with his nephew, Fred J. Yeomans, county clerk.

SCOUTS IN NEW QUARTERS

Equiping Rooms to Carry On Work of Scoutcraft — Plan Athletic Stunts and Big Summer Camp

The Maryville Boy Scouts are now in headquarters of their own in the rooms in the rear of the Maco print shop formerly occupied by the Standard Poland-China Record Association and are getting their rooms fixed up to carry on the work of the organization and will make and install equipment for learning the Morse signal code and work rooms for making camp equipment that will be used this summer for hikes and camping. Jesse Boatman has been commissioned as assistant scoutmaster and will give the boys instruction in manual training and help in activities of scoutcraft.

Some athletic equipment has been promised and it is planned to devote one or two evenings each month to athletic stunts, when drills and physical training will be a part of the program, together with demonstration of first aid work.

At the last meeting a third patrol was formed and a full troop of thirty-two will be registered, as several applications for membership are received at each meeting. As soon as Troop I is completed a second troop will be organized, and in this connection the need of scoutmasters and assistants is pointed out.

Plans are also under way for a ten days' summer camp near Maryville to be participated in by Scouts from Burlington Junction, Pickering, Ravenwood and Clarinda, Ia., when it is hoped to have a Scout official from national headquarters to give instruction in scoutcraft and camping.

The following boys are members of Troop I:

Truman Landon, Jack Jones, Francis Burris, Lawrence and Oren Masters, Allen Shupe, Gerald Keef, Robert Arnett, Floyd Cook, James Graham, Townsend Godsey, Laverne Robey, Dale Howland, Harold Green, Gordon Roach, William Gaugh, Richard Baker, James Shearer, Paul Robey, Burdette Yeo, Russell Robey, Carlos Yehle, Vodie Willoughby, Lorace Landfather, Howard Bratcher, Ermil Coler, Harold Miller.

CRITICAL DAY IN GERMANY

Strikers Who Refuse to Obey Mandate of the Military Will Be Court Martialed and Shot

Special to The Democrat-Forum.

Amsterdam, Feb. 4.—Today is a critical day in the German Empire. Women and men strikers have been ordered to return to work immediately under penalty of punishment. It is reported from the frontier that the military at a conference Sunday decided to treat all who refuse to obey orders as traitors and will be courtmarshalled shot, if guilty. There were socialist manifestations in Berlin Sunday despite orders and there was clash but no details are obtainable. By the middle of the week things will be normal, said an officer.

Leave For California.

Mrs. Alice Cook and son, Albert M. Cook, who have been making their home for the past year with Mrs. Cook's brother, F. S. King, manager of the Graham store, leave this evening for Los Angeles, Calif., where they will make their home.

Paul Willson Home From Chicago.

Paul Willson arrived this afternoon from Chicago and will spend some time with his parents, Mr. and Mrs. U. I. Willson. Mr. Willson is recovering from two operations he recently underwent in a hospital there.

BAKER WARNS OF REPORTS OF GERMAN DISSATISFACTION

HITCHCOCK RAPS BAKER

Declares Report of Number of Men Sent Over Seas Is Preposterous — Drive On War Cabinet Bill Starts

Special to The Democrat-Forum.

Washington, Feb. 4.—While Americans occupy the front line trenches in France and on the British lines, their operations are confined to minor details, says Secretary Baker in his weekly review of the war today. The secretary warns not to allow the reports of dissatisfaction in Germany to interfere with our preparations and says that he believes that the Allies have a superiority of men and guns. On the west front American patrols are active in "no man's land" and surprise attacks by Germans have failed.

Secretary Baker's announcement of the number of men the United States has been sending to France this year is an exaggeration of the wildest sort and is absolutely preposterous, declared Senator Hitchcock in a speech on the war cabinet bill this afternoon. The present conditions of shipping are nothing less than shocking, he declared, and there are not enough bottoms to get as many men across as he points out.

Senator Hitchcock reviewed the testimony before the senate military committee in the war investigations to prove a lack of co-ordination and declared they had been found to present a system absolutely obsolete and cumbersome.

Senator Hitchcock of Nebraska, ranking member of the military committee, made the first speech this afternoon in the smashin gdrive that has been started to force a reconstruction of America's war program.

STRIKE RIOTS AT ST. LOUIS

Street Railway Strike Ties Up System —Cars Were Stoned This Morning—150 Arrests Made

Special to The Democrat-Forum.

St. Louis, Feb. 4.—Minor riots with cars being stoned and mobs of strikers and sympathizers gathering marked the second day of the street car strike here. One hundred and fifty arrests have been made and there will be no cars operated tonight. Sixty cars were operated by old men. By nine o'clock this morning many cars were operated by loyal motormen and conductors and retired men were called back for service, but disturbances were looked for later in the day.

WAGE INCREASE IS ASKED

Railroad Men at Capital to Present Statistics to the Wage Commission

Special to The Democrat-Forum.

Washington, Feb. 4.—Wage increases from thirty to forty per cent for railroad employees will be asked the wage commission by the four brotherhoods, it was stated here today. Representatives A. B. Garrettson, of the Order of Railway Conductors and W. H. Lee of the Brotherhood of Railway Trainmen, appeared before the commission presenting statistics. They will ask for conductors from five to twenty and forty per cent increase, freight three to twenty-five, for passengers per hundred miles. Trainmen, admittedly in the west will ask an average increase of sixty-five per cent.

Mr. and Mrs. Walter Wray and Misses Anna Bainum and Marie Reuillard were among the Maryville people who drove to St. Joseph to attend the "Show of Wonders" which was being put on there.

We Must Hold Together.

Let us ask ourselves. Are we thinking and working in terms of the individual or community, or in terms of our national life, which calls for united service and unbroken ranks in the great volunteer Red Cross army? A keen observer of world conditions at this time, Mrs. H. M. Morgan, director of the Bureau of Development, and whose opinions are regarded as expert testimony, says: "The unity of the people at home is one of the most important factors in bringing this war to a close."

Let us be good soldiers and follow our leaders in organization, who have given their best thought to this question, convinced that work to be effective must be harnessed to organization.

Mrs. S. R. Beech, formerly a resident of Maryville, now living in San Diego, Calif., in a letter to Mrs. Merrill Alderman, says she has finished her fourteenth sweater, has knitted seven pairs of socks, four helmets and six pairs of wristlets. At matinees and other entertainments, Mrs. Beech says, fully half the women may be found knitting. Neighbors who are unable to knit have offered to do her housework while she knits, she says.

As an indication of what the women of Nodaway county chapter are doing for the Red Cross, here are some comparative figures: Nodaway, with a population of 30,000, for the week ending January 25, made one-half as many muslin dressings as Kansas City, with a population of 300,000; one-fourth as many gauze dressings and one-third as many hospital garments, with one hundred miscellaneous articles extra.

More than five million dollars worth of yarn has been purchased or ordered for the Red Cross to be knitted into sweaters and mufflers.

The Parnell F. F. O. G. auxiliary made and shipped to Maryville last week 580 pieces as follows: 125 T bandages, 170 abdominal bandages, 135 many-tailed bandages, 90 irrigation pads 16 x 24 and 60 triangular slings.

The children's snipping class that formerly met in the Red Cross rooms on Saturday afternoons will continue their work in the sewing room at the High School, working on Friday afternoons between four and five o'clock under the direction of Mrs. J. M. McDonald.

This week's issue of the Skidmore News contains a picture of the Skidmore auxiliary members at work in their work room. Some thirty Red Cross workers are shown.

There was no shipment to national headquarters last week on account of the Red Cross rooms being closed, a new furnace being installed in the library building.

White Cloud auxiliary met Thursday at the home of Mrs. O. D. Walker, with Mrs. A. M. Crooke instructor. Eight members were present and 400 gauze wipes, 20 triangular bandages and one sweater were completed and sent to headquarters.

American women are making in Red Cross rooms and in their homes, surgical dressings, knit goods, hospital garments and comfort kits to an estimated value for the year of $36,400,000.

The cold weather of last week was not sufficient to dampen the ardor of the country workers, as big shipments have been coming in to headquarters daily.

The United Workers auxiliary held an all-day meeting Wednesday at Pleasant Grove church. Fourteen members were present and 379 dressings were made. Another all-day session will be held Wednesday of next week.

The garment department under the direction of Mrs. D. J. Thomas has many suggestions to offer to those who wish to give small articles made from left-over pieces of material that most everyone has.

The White Cloud and United Workers auxiliaries will serve lunch at the Paul Saxton sale next Friday, February 8. The ladies will wear their Red Cross uniforms and will introduce some novel features in connection with the event. The proceeds of the dinner will go to their auxiliaries.

The Paris bureau of the Red Cross was opened in the summer of 1915 in an artist's studio, with two workers and fourteen cases of goods. Today there are sixty paid workers and 250 volunteers, handling 1,929 hospitals and sending out 40,000 to 50,000 dressings daily. The greater part is made in America and the Paris workrooms are in a sense simply a field service ready for anything that comes up. If the supply of operating towels from the United States runs short the Paris workrooms make towels. Recently 200 cases of dressings were sunk in a torpedoed ship. They stand ready to make good the U-boat toll. The ambulance drivers seem to have been overlooked in the matter of first-aid kits. They made up emergency packages for them. They respond, as in the case when a French hospital was bombed and the physicians were left practically without dressings.

The A. M. W. auxiliary met January 31 with nine members and four visitors present. A large amount of work was completed and prepared for shipment: 70 absorbent pads, 120 triangular bandages, 110 shot bags, 10 large absorbent pads 16 x 24, two sweaters, three pairs of wristlets, one pair of socks and twelve operating leggins. The club is proud to have as one of its members Mrs. M. J. Harbison, aged 86, who is doing her part by knitting for the soldiers, and also to have one gentleman knitting, Ben Seyster of Ravenwood.

The Elmo Red Cross auxiliary turned into headquarters last week the following articles: Thirty-five 4 x 7 shot bags, thirty 5 x 8 shot bags, 80 triangular muslin bandages, 20 paper back irrigation pads, one dozen muslin bed shirts, three sweaters, 20 pairs of socks, two pairs of wristlets and one helmet.

ACTIVE IN CITY'S INTEREST

Sunday School News Credits Success of Recent Convention to Commercial Club and Press

The following appreciation of the work of the Commercial Club and of Maryville's two daily newspapers is from the current issue of the Missouri Sunday School News:

"Every progressive town has a 'commercial club,' which takes a more or less active interest in business affairs. Some of them are even interested in civic enterprises. Religion is usually considered out of their sphere. Except in larger cities these organizations are run by volunteer officers, the secretary generally receiving a nominal compensation.

"The Maryville Commercial Club has a high class executive secretary, giving his entire time. Further than that, the club is interested in everything that touches any phase of the life and activities of Maryville, religion included. Not nominally interested, but vitally and actively. It follows, therefore, that they had a large hand in securing our convention for Maryville, in advertising it and in making our welcome and success complete.

"One of the chief factors of the convention was the splendid co-operation of the two daily papers, The Maryville Democrat-Forum and the Tribune. In advance of the convention each issued a special edition, with a section of eight pages devoted to convention material. These were mailed to a selected list of two thousand names, furnished by the state office. While the convention was in session a large amount of space was given each day. Such papers are a great asset to any city."

Sells Farm for $18,600.

O. D. Walker, living on the Savannah road between Arkoe and Barnard, has sold his farm of 120 acres to W. R. Logan of Wilcox. The price paid was $18,600—$155 an acre. QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

REGISTRATION OF ENEMY ALIENS STARTS TODAY

TAKE FINGER PRINTS, TOO

Nearly 300 Unnaturalized Germans in Nodaway County Will be Card Indexed by Postmaster Tood

Uncle Sam is soon to have a complete card index of the enemy aliens within his borders.

Work of registering the half million unnaturalized Germans in the continental United States with a view to minimizing the danger of hostile acts by enemy aliens, started today. Registration for Nodaway county enemy aliens will be conducted by Postmaster James Todd at the federal building. This is in pursuance to President Wilson's recent enemy alien proclamation and police, federal marshals, agents and postal authorities will co-operate in the big round-up.

It had been planned to register only those Germans who were residents of the larger eastern cities, but when the department of justice realized that the object of the registration might be defeated by the shifting about of aliens the order was issued to include all in the United States. The order does not apply to women and to children under fourteen years of age, and natives of Austria-Hungary will not have to be listed. After registration he must carry a certificate showing that he has complied with the registration and will not be allowed to change his place of residence without first gaining the approval of the police or postal authorities. Those who fail to comply with the regulations will be amenable to punishment by internment for the period of the war.

In cities having a population of 5,000 or more, according to the 1910 census, the registration will be administered by the chief of police and his assistants. In smaller communities and rural districts the postmaster will have charge. All the reports will be forwarded to the United States marshal and to the department of justice.

Much Data Is Required.

Every male German will be required to appear and to furnish four photographs of himself. Three of these are for triplicate affidavit information blanks and the fourth for his registration certificate. Each photograph must have the man's signature across the front and must be not more than three inches square.

The affidavit provides for recording the name, address, age, place of birth, occupations and residences since January 1, 1914; date of arrival in the United States, whether married, and the names of any children. If the registrant has, or has had, any relatives bearing arms against the United States this fact must be recorded. He also must designate whether he registered for the selective draft and tell whether he has had any military training. The blanks also will give a detailed description of the registrant's appearance, emphasizing any distinguishing marks or features.

One of the triplicate affidavits is to be retained by the registration agents, one is to be sent to the United States marshal and the third is to be filed with the department of justice.

Take Their Finger Prints.

The printer also will have his part in making the registration a success, for in the smaller communities where the postoffices have no device for taking fingerprint impressions, the postmasters have been advised to borrow a roller and a small quantity of printer's ink. The ink will be spread thinly on a pane of glass and the impressions taken in this.

Germans who happen to be away from their places of residence during the week may register from the district in which they are temporarily staying. The registration includes only the continental United States. Germans in the Philippines, Hawaii, Panama canal zone, Alaska, Virgin Islands, Guam and Samoa will be listed later.

The government has been anxious to avoid creating the impression that it looks with suspicion upon every German resident of the United States, and those administering the registration have been advised that those submitting "are not to be treated as persons of evil disposition" and are to be "dealt with in a courteous and friendly manner."

THIS WOMAN SAVED FROM AN OPERATION

By taking Lydia E. Pinkham's Vegetable Compound, One of Thousands of Such Cases.

Black River Falls, Wis.—"As Lydia E. Pinkham's Vegetable Compound saved me from an operation, I cannot say enough in praise of it. I suffered from organic troubles and my side hurt me so I could hardly be up from my bed, and I was unable to do my housework. I had the best doctors in Eau Claire and they wanted me to have an operation, but Lydia E. Pinkham's Vegetable Compound cured me so I did not need the operation, and I am telling all my friends about it."—Mrs. A. W. BINZER, Black River Falls, Wis.

It is just such experiences as that of Mrs. Binzer that has made this famous root and herb remedy a household word from ocean to ocean. Any woman who suffers from inflammation, ulceration, displacements, backache, nervousness, irregularities or "the blues" should not rest until she has given it a trial, and for special advice write Lydia E. Why You Should Buy Furniture Now

A great many mercantile establishments have raised their prices as fast as the wholesale advance, regardless of the cost of the goods—they are advised to do so by the large wholesaler—and no doubt they are right in doing so because if they do not they will have to recapitalize when they restock at the higher market prices. But regardless of this good business principle, we are

SELLING AT THE SAME OLD PRICES.

The reason we are doing this is that we have such a large stock bought before the raise that we had rather take our legitimate profit and SELL THE GOODS—even if we have to invest more or reduce the stock when we rebuy.

We believe that our customers are acquainted with the high quality of the goods we carry and with our methods—and when we tell you that you will be MAKING MONEY by buying house-furnishings NOW, we are sure you will see the truth of it.

DON'T PUT IT OFF.

Until we have to charge fifty to one hundred per cent more for the same goods—come and get what you want now at the old price.

ACCOUNTS FOR GHOST COLORS

Eye Is Especially Sensitive to Two Kinds of Perceptions, Light and Color Predominating.

In reply to an inquiry why are ghosts always seen clothed in white, a scientist states:

This is easily accounted for. As there have been no ghosts during historical times, we must assume that in all cases where ghosts have been actually seen we have to do with mere hallucinations caused by fever or some other disorders of the observer, where, therefore, the organ of sense, and particularly the eyes, registered impressions of objects that had no corresponding external existence. According to the minute descriptions of such apparitions given by patients to their physicians, the ghosts, with rare exceptions, were "clad in white." Now, our eye is sensitive to two kinds of perceptions, viz., light and color. In this case, where no definite color was perceived, the hallucination, in which only the organs of the eye sensitive to light are affected, is declared to be white.

Still, there are also colored apparitions of ghosts; nay, we can introduce into the body substances calculated to impair our sense of color. Thus, the immoderate use of hashish produces violent visions; of alcohol, blue ones; of atropin and skopolamin, red ones. Quinine and too much tobacco likewise produce red visions, while salicylic acid, digitalin and phenacetin cause light yellow sensations. The inhalation of carbonic oxide, and snake bite, too, are said to be followed by light yellow sensations of sight.

CELIBATES IN LARGE NUMBER

Seventeen Millions of Class in United States, Many Being Inferior to Married People.

"There are 17,000,000 celibates in the United States, according to a statement which has been going the rounds of the press, after originating in a magazine article on the sex question," says the Journal of Heredity. "Examination of the census schedules for 1910 indicates that this figure includes all males over twenty and all females over fifteen.

"A calculation based on such age limits is misleading, but the actual facts are quite striking enough. Persons thirty-five years of age or over are relatively unlikely to marry, and it seems fair to base computations on that age. They show, then, that there are nearly 2,000,000 unmarried men in the population, and about 1,250,000 unmarried women. There are about 1,500,000 unmarried women between the ages of twenty-five and thirty-four, and a considerable part of these are certain never to marry.

"The celibacy of these millions is, from a eugenic point of view, not wholly to be deplored. While the number includes many potential fathers and mothers of a desirable character, it is probable that, on the whole, these life-long celibates are eugenically inferior to the married population."

Rubber in India.

In southern India a factory at which high-grade rubber is made resembles a dairy, the milklike appearance of the latex adding to this illusion, as well as the precautions taken to insure absolute cleanliness, says the Family Herald. One of two methods of manufacture is generally adopted. If the estate is young and only a few trees are being tapped the rubber is made in the form of biscuits or sheets. The latex is put into shallow, round dishes or oblong pans and a certain quantity of acetic acid added to it. This is the coagulating agent most generally used. After standing for some hours the rubber is found floating on the top of the dish in a white, spongy clot. This is removed and washed and rolled by hand and through a mangle until clean. The biscuits are placed on racks in a warm room or an artificial dryer and allowed to remain there until dry. The finished biscuits are pale amber-colored and transparent, and for this reason are popular on the market, for their purity and freedom from dirt can be judged by holding them to the light and looking through them.

Food for Thought.

"Am I the first girl you have ever loved?"

He thought awhile and then made reply:

"No, you are the kind of girl a fellow has to be educated up to."

And that seemed to set her to thinking.

Mothers of Missouri, Prepare!

When a girl becomes a woman, when a woman becomes a mother, and when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. Many women in Missouri would testify just as do the following:

ST. LOUIS, Mo.—"Dr. Pierce's Favorite Prescription was a favorite medicine of my mother's. When I was a girl she gave it to me for irregularity. It was the means of restoring me to health. I do recommend this medicine to young girls, especially to those who are just coming into womanhood."—MRS. FRANKIE WOOLSEY, 4449 Hunt Ave.

KANSAS CITY, Mo.—"With my first child I suffered untold agony and fairly dreaded a second. I commenced to take Dr. Pierce's Favorite Prescription and felt like a different person, my nerves were in better shape and I was certainly surprised at the ease and comfort it gave me. The doctor was just as surprised as I because he had the chloroform ready. 'Favorite Prescription' is a wonderful help to Nature and I would advise every prospective mother to give it a trial."—MRS. ANNA MANDEVILLE, 1817 Agnes Ave.

Dr. Pierce's Favorite Prescription is not a secret remedy for the ingredients are printed on wrapper.

Soldier's Letters

MISSOURIAN IN KENTUCKY CAMP

David M. Warren, Formerly of Democrat-Forum Staff, Writes Interesting Letter

Camp Zachary Taylor, Ky., January 31, 1918.

To the Democrat-Forum Bunch:

You will please pardon all typographical errors in this letter, for when one has a typewriter that has two keys where they ought no to be, and a few other things wronk incidentally, you can't expect much accuracy.

After a few days of looking around and getting the lay of the field, so to speak, I have begun to do some publicity work. Most of my time will be spent in getting out publicity material, and the gathering of news for "Trench and Camp" will be only incidental to the main job.

Mr. Dix, the camp general secretary, is giving me a "hothouse" course in getting acquainted with the men. There are ten Y. M. C. A. buildings here and he plans for me to live at each one three or four days until I make the round. I have already been at three of the buildings. One is for negroes, and I trust I shall be spared the honor of a visit to it. My room has been assigned to me at the administration building, but I am not to live there until I have completed the tour.

There are only about 21,000 soldiers here, as 2,000 were transferred to Camp Shelby, Miss., and 6,000 to Camp Pike, Ark. Also only sixty-five per cent of the quota is here. It is believed that the remainder will be sent to the camp some time next month.

Everywhere there is evidence of Missouri—for instance, in the army mule. And whoever saw a mule that wasn't from Missouri? Even a Canadian captain in a lecture here said that he was from Missouri when he saw a Tommy with four service bars, which indicated that he had been wounded in four distinct engagements, and the Tommy showed him. Efforts are being made to form a club of former students and graduates of the University of Missouri. Nine or ten men have already been located.

Packey McFarland, champion lightweight boxer, is instructor in boxing. The other night he and a private from an engineering regiment gave a little three-round exhibition bout. Although that private had been the victor of thirty fights and was the champion of his weight in southern Illinois, he could not get in a blow except when Packey voluntarily loosened up on the defense. That boy was given an unmerciful beating in as merciful a way as possible and admitted afterward that he knew very little about the fistic art. Boxing is said to enable a man to assume certain effective actions in bayonet exercises.

A soldier was sentenced to three months in the guardhouse the other day for stealing a pair of leggings valued at fifty cents, and another one was also given three months for trying to put something in his eyes that would make him of no use in a military way. The officers training camp men are put through the most drilling. They have been digging trenches and tonight are scheduled to sleep in them. Movable kitchens are being taken there and it is said the would-be officers will remain at the trenches for at least twenty-four hours.

A mess kit has been issued me and I have gone through the line a few times at the enlisted men's mess. Some of those soldiers can eat and do eat enough, it seems. I have seen several of those men eat two full mess pans of potatoes at one meal. Even though I like potatoes very well, I have thought that two pans would last me a week.

Best wishes to all.

Yours sincerely,

DAVID M. WARREN.

Public Sale

I will dispose of the following surplus stock and grain at public sale at my home farm adjoining Barnard, Mo., on

Monday, February 11

Commencing at 1 o'clock sharp.

26 Head of Young Horses and Mules—Just ready for the harness. 17 head of 2 year old coming 3 this spring; 9 head of 3 year old coming 4 this spring. I have raised all of these colts and a number will be sold in pairs, as they match well. I will not try to describe each animal, but will ask you to come sale day and look them over. These colts have not been in the barn a single night this winter and all have their every day clothes on. They are sure the right kind for the farmer t buy to make a crop and mature into usefulness.

Corn, Oats, Etc.—1000 bushels of Yellow Dent corn. This is early corn, solid and well matured. I think it wil grade No. 2 or better. 100 bushels of seed oats. We raised 2500 bushels of these oats on 40 acres by weight and they will make good seed.

Some Choice seed corn.

50 Head of Fat Hogs if not sold before day of sale.

I will also offer 750 bushels of oats in bin at my lower farm, 7 miles northeast of Savannah, on same terms as balance of sale.

Terms—All sums of $10 and under, cash. On sums over that amount a credit of 3, 6 or 9 months will be given, purchaser giving bankable note bearing 8 per cent interest from date. Nothing to be removed until terms of sale are complied with.
